

2023 LEAF COLLECTION PROGRAM

Begins
October 23

RESIDENT OPTIONS

1 Bulk Leaf Collection

Residents using bulk collection must have their leaves raked to the parkway by 7am on the Monday of their week. To ensure pickup, leaves must be away from mailboxes, off the street & piles must not include brush. Please make sure there are no vehicles parked on the street within 20 feet. This option is weather dependent.

Week of Oct 23 & Nov 6

Leaf collection begins NORTH of the railroad tracks

Week of Oct 30 & Nov 13

Leaf collection begins SOUTH of the railroad tracks

2 Compostable Paper Bags

Residents who prefer to bag their leaves can contact Public Works (at the contact info below) anytime throughout the program to request pickup. Once the bulk collection has been completed, Public Works will continue to pick up bagged leaves until Friday, December 15 at 12pm.

3 Compost Your Leaves

A direct benefit to turf lawns involves individual property owners mulching leaves into smaller particles and allowing the mulch to remain on the lawn. The small particles will decompose into the ground, providing valuable nutrients to the soil.
